

## Cattle Notes.

A large stock yard, run on the principle of the great stock yards in Chicago, is to be established in Augusta, Georgia.

The number of cattle returned for taxation in 1890 in New Mexico was 1,129,088; in 1891 the return was 1,041,237, a reduction of 87,851. The number of cattle shipped out of the Territory by rail during the last year was 126,824, and the number driven out was 29,995, making altogether 156,819.

Shipments of dressed beef from Chicago during 1892, aggregated 1,196,000,000 lbs. which is 231,000,000 lbs. more than was ever previously shipped in one year. Shipments of canned meats were 1,415,200 cases, as against 1,253,489 cases for 1891.

Our export beef trade is a matter that has grown up almost wholly within the past fifteen years, but in 1890 it amounted to more than \$33,000,000 for live cattle, and about an equal sum for beef products. If we were now compelled to find a market for this surplus within ourselves it would seriously upset prices. The more we can increase this market the better our prices will be for all cattle. But to increase it, especially the exportation of live cattle, we must produce cattle of better quality. Not 6 per cent of the cattle now received at our principal markets are of the quality demanded for export. If there were more of the proper class more would be exported, and the entire market would respond to this relief with a higher level of prices.

Secretary Ruess is in favor of a law to compel the use, by transportation companies, of cars for the sole use of southern cattle, not to be used for transporting any other animals or merchandise during the Texas fever season, and requiring such cars to be marked with a distinctive color, so that they might be at once distinguished from other cars of the cattle traffic. He thinks it would go a long way towards preventing the spread of this disease.

Wm. Courtenay, the well known Montana stock dealer, says that stock cattle are held at an advance of \$2 a head, and that he had sold some southern steers at an advance of \$2 per head over last year's price while in sheep there has been a little decline. He sold 7,000 wethers at \$4.50 per hundred, delivered in February—last year they sold at \$5. Sales of southern cattle have been made by Goodnight and the Lee-Scott people at \$20, each selling 5,000.

A dispatch states that there is a prospect of a lively meat war in San Francisco, as the result of the establishment of Philip D. Armour's big stock yards and slaughter house at Baden, South San Francisco. The slaughter-house men who have controlled the meat product of San Francisco for so many years do not like the idea of competition, and are trying to make the retail butchers boycott Armour's establishment. Armour's representative here, Thomas Newton, declares that if a boycott is attempted his company will open retail shops all over the city, and will sell meats at rates with which the other butchers can not hope to compete.

Arizona is finding a market for its steers in California and Nevada, where they take on greatly improved conditions by reason of the radical climatic change. Many of the great pastures in California have been cut up into farms during the past few years and the stock range thereby reduced, while Nevada lost a heavy percentage of her range herds two years ago and is forced to go out of the state for stockers. These markets have been a great relief to Arizona and materially aided New Mexico.

Great Britain imported, during 1891, 135,000 cattle less than in 1890, the decrease being attributable to lesser importations from Denmark, Canada and the United States. The receipts from Denmark were 50,000, from Canada 13,000 and from the United States 69,000 less than in the preceding year.

The following reasonable conclusion is found in the National Provisioner: It is stated that more beef cattle are in the country than there has been for many years. This is generally the talk in November and December, when more poultry than beef is consumed. The market is not yet sufficiently overstocked with fat cattle to reduce the prices of beef.

## Territorial Items.

Las Cruces is crowing over the fact that the town has a daily paper, a new restaurant and a home dentist.

Considerable work is going on quietly in the Turquoise section, north of Cerrillos, and a number of new claims showing promising prospects, are being developed.

It is said that every democratic member of the legislative house has signed a petition praying for President-elect Cleveland and the appointment of W. T. Thornton as governor.

Dally Bennett has gone from Las Cruces to Austin, Texas, where he will enter a law office and probably locate permanently.

The Modoc mine in Dona Ana county is being thoroughly exploited under the direction of G. W. Wood. When that work is completed the concentrating plant will become a certainty.

There lies in the treasury of the Territory some hundreds of thousands of dollars, "not available" for current expenses or interest. There is evidently "a big nigger in the woodpile" here.

It is reported that the Templar, Keystone and Virginia mines in Sierra county, are to be consolidated into one corporation and worked under one management. These mines have already produced about \$600,000 worth of ore.

The Kingston smelter material which was attached by Solon E. Rose & Bro., of Albuquerque, last winter, and sold by Sheriff Sanders last Saturday, was bid in by the Kingston smelter company.

Arrangements were made to present the late superintendent of this division of the Santa Fe, Mr. H. U. Mudge, with a silver service and diamond pin, at San Marcial lately, but Mr. Mudge failed to put in an appearance. The boys say that he will have to be present before he receives them.

More gold has been taken out of the newly discovered gold properties near Magdalena than has yet been taken from the San Juan diggings. In any other country, the recent strikes in the Gallinas would cause a rush, but in New Mexico it is doubtful if any unusual stir will be made. Some very rich gold ore has been brought into Magdalena from the district.

One day last week J. S. P. Robinson of North Percha, Sierra county, while looking over some of his mining property down by the creek, about a mile below his store, he ran across a deer track. Following the trail it led him to a cave—which it seems he nor any one else had ever discovered. Gathering some pine near by, he entered, and began an exploring expedition and lost himself, not getting out until near dark. He left torches so that he could see from one to the other. The first one went out. After wandering around for some time he tore his pants into strips and trying all the various openings, marking them as he went along, he finally found daylight.

San Marcial is the proud possessor of a pet goat whose wily, wicked ways are attributed to the conspicuous part he plays in the initiation ceremonies of the different local organizations of which he is said to be an important member. He was sauntering along railroad avenue one day this week contentedly chewing a sprig of the union Christmas tree, when two young ladies passed him, bearing proudly aloft a 5x8 camera. Something about the picture machine caused the iron to enter his soul, and he promptly charged. There were wild shrieks, and a fluttering of skirts in that vicinity for a moment, a hasty retreat into the nearest store, and the goat held an easily conquered field.—San Marcial Bee.

## A Man Well-known to the Theatrical Profession Tells His Story.

The following story is told by H. Helmer of Helmer & Lick, wigmakers, No. 123 Fourth Avenue, New York. "I have had a combination of catarrh and bronchitis from my early infancy. Two years ago the symptoms became greatly aggravated, and I was afraid of running into consumption. Have tried inhalations, douches and medicines numerous, but none with as marked success as Dr. Sage's Catarrh Remedy coupled with the use of Dr. Pierce's Golden Medical Discovery for the bronchitis and the blood. Having used two bottles of the 'Catarrh Remedy' and a like amount of the 'Golden Medical Discovery' I find myself a well man."

The makers of Dr. Sage's Catarrh Remedy say that it is a cure for 100 out of 100 cases of Catarrh in the Head, and its makers can afford to take the risk of your being the one hundred.

The only question is—are you willing to make the test, if the makers are willing to take the risk?

If yes, the rest is easy. You pay your drug-store 50 cents and the first bottle.

If you're wanting the \$500 you'll get some better—see cure!

"No living germ of disease can resist the antiseptic power of essence of cinnamon for more than a few hours," is the conclusion announced by M. Chamberland as the result of a prolonged research and experiment in M. Pasteur's laboratory. It is said to destroy microbes as effectively, if not as rapidly, as corrosive sublimate. Even the scent of it is fatal to microbes, and M. Chamberland says a decoction of cinnamon should be taken freely by persons living in places affected by typhoid or cholera.

Hall's Vegetable Sicilian Hair Renewer is unquestionably the best preservative of the hair. It is also curative of dandruff, tetter, and all scalp affections.

## The Production of Gold and Silver.

A French review has compiled from various official sources statistics as to the annual production of gold and silver throughout the world, the total being given at 205 tons of gold and 1,477 tons of silver, representing a value of \$26,810,000 for the gold and of \$37,860,000 for the silver. The countries which produced the most gold last year were the United States, \$6,880,000; Australia, \$5,080,000; Russia, \$4,680,000; the South African Republic, \$2,760,000; the British possessions in Africa and Asia, \$1,920,000; China, \$1,080,000; and New Zealand, \$760,000. The average annual production of French Guiana, British Guiana, Germany, Hungary, Chile, Mexico, Venezuela and Canada oscillates between \$200,000 and \$280,000; while the countries which produce the most silver are the United States, \$15,600,000; Mexico, \$10,840,000; Bolivia, \$3,200,000; Germany, \$2,760,000; Chile, \$2,600,000; Spain and France, \$2,400,000 each; Central America and British Guiana, \$2,000,000 each; and China, \$2,390,000.

Ayer's Pills are constantly advancing in the estimation of those who use them. They improve the appetite, promote digestion, restore healthy action, and regulate every function. They are pleasant to take, gentle in their operation, and powerful in subduing disease.

The capitalization of American railroads is set down at \$9,800,000,000, which is, of course, far too great an estimate. However, the United States has 26 miles of railway to every ten thousand inhabitants. The Interstate Commerce Commission notes the fact that the number of independent railway companies was actually less in 1891 than in 1890, and that 42 companies own approximately half the mileage. In 1891 the net revenue of the railroads was \$364,000,000.

It is probably not the coldest weather you ever knew in your life; but that is how you feel just now, because past sufferings are soon forgotten, and because your blood needs the enriching, invigorating influence of Ayer's Sarsaparilla—the Superior Medicine.

## For Bronchitis

"I never realized the good of a medicine so much as I have in the last few months, during which time I have suffered intensely from pneumonia, followed by bronchitis. After trying various remedies without benefit, I began the use of Ayer's Cherry Pectoral, and the effect has been marvelous. A single dose relieving me of coughing, and no sooner good night's rest."—T. A. Higginbotham, Gen. Store, Long Mountain, Va.

## La Grippe

"Last spring I was taken down with la grippe so much as I was kept in bed for several days. My throat was sore, and so difficult was my breathing that my breath seemed as if confined in an iron cage. I procured a bottle of Ayer's Cherry Pectoral, and after using it four bottles, was thoroughly cured. I can confidently recommend this medicine."—F. H. Hoffman, Clay Centre, Kans.

## Lung Trouble

"For more than twenty-five years, I was a sufferer from lung trouble, attended with coughing and severe at times as to cause hemorrhage, the paroxysms frequently lasting three or four hours. I was induced to try Ayer's Cherry Pectoral, and after taking four bottles, was thoroughly cured. I can confidently recommend this medicine."—F. H. Hoffman, Clay Centre, Kans.

## AYER'S Cherry Pectoral

Prepared by Dr. J. C. Ayer & Co., Lowell, Mass. Sold by all druggists. Price 25¢ a bottle. 50¢ a bottle. Prompt to act, sure to cure.

**The Sower**

Has no second chance. The first sowing is the last. If you sow the seed of truth, it will grow.

**Ferry's Seeds**

Ferry's Seed Annual, for the time being, contains all the latest and best seeds for sowing. It is a complete and reliable guide to the farmer and gardener. It is sold by all druggists and seed stores. Price 25¢ a copy. Sent free on request. Write to FERRY'S SEEDS, Detroit, Mich.

## CITY Delinquent Tax Sale.

J. CHARLES L. CANTLEY, Marshal and Collector of the Town of Silver City, Grant County, New Mexico, will, on Tuesday, February 14th, 1893, at 12 o'clock, A. M., offer for sale in front of the Silver City National Bank in the Town of Silver City, the following described real estate to satisfy the taxes now delinquent on the same for the year 1892, and will continue to sell the same from day to day until the same is satisfied, viz:

NAME.	VAL.	TAX.	COST.
